PADGET CALLAN

PSYCHOLOGY | PEOPLE ANALYTICS | BEHAVIORAL RESEARCH | HUMAN-CENTRIC MANAGEMENT

MSc People Analytics and Human-Centric Management, University College London | Expected 2027

ABOUT ME

I am a psychology graduate pursuing an MSc in People Analytics and Human-Centric Management at University College London. My academic and professional interests centre on understanding human behaviour, exploring the relationship between people and organisations, and using research and data to inform meaningful decisions.

With an undergraduate background in psychology and experience spanning behavioral research, academic coaching, programme development, admissions operations and recruitment leadership, I bring an interdisciplinary perspective to understanding people and improving organisational processes.

I am particularly interested in the intersection of psychology, data analytics and organisational behaviour, including how evidence-based approaches can support employee experience, organisational effectiveness, leadership development and people-related decision-making. I enjoy translating complex information into practical insights, developing structured solutions to problems, and exploring how analytical approaches can improve the way organisations understand and support people.

EDUCATION

University College London (UCL) | *MSc People Analytics and Human-Centric Management* | *2026–2027*

- Director's Scholarship for Academic Excellence (2026–2027).
- Academic interests include People Analytics, Human-Centric Management, Organisational Behaviour and Evidence-Based Decision-Making.

Washington State University | *BS Psychology* | *December 2024*

- Magna Cum Laude; cumulative GPA 3.83.
- Minors: Women's Studies and English.
- President's Honor Roll (2021–2024); Lake Washington PTSA Turnaround Scholarship (2021–2022).

PROFESSIONAL EXPERIENCE

Admissions Assistant | *Bellevue Post Acute* | *August 2025–September 2026*

- Supported high-volume admissions operations during a 327% increase in patient census, from 30 to 128 patients, helping the facility reach full capacity within one year
- Coordinated admissions workflows across documentation, insurance requirements and multiple stakeholders, balancing competing priorities and time-sensitive processes
- Led facility tours and communicated service options to prospective residents and stakeholders, translating complex information into accessible guidance
- Managed sensitive records and company-system documentation, maintaining accuracy, confidentiality and compliance
- Contributed to operational efficiency and organisational objectives through effective coordination and process management

Academic Success Coach | *Academic Success and Career Center, Washington State University* | *August 2024–July 2025*

- Delivered individual coaching sessions, identifying student needs and developing practical strategies to improve academic performance, personal development and goal attainment
- Redesigned online seminars and incorporated assessments to evaluate and improve training effectiveness and student learning outcomes
- Facilitated workshops and collaborated with student leaders, communicating unfamiliar or complex information to diverse audiences
- Developed productivity and organisational tools, including semester planners, to strengthen prioritisation, time management and sustained engagement
- Applied active listening, problem-solving and interpersonal communication to support individuals navigating academic and personal challenges

RESEARCH AND ANALYTICAL EXPERIENCE

Teaching Assistant – Undergraduate Practicum | *Washington State University* | *Spring 2025*

- Researched and evaluated evidence-based training programmes, comparing opportunities and identifying options to strengthen students' applied psychology skills
- Collaborated with faculty and peers to develop curriculum content and instructional materials covering research training, academic writing, applied research and clinical internships
- Contributed to the development of experiential learning opportunities designed to strengthen professional readiness
- Provided structured course feedback to support continuous improvement in programme design and delivery

Undergraduate Research Assistant | *Attention, Perception & Performance Lab, Washington State University* | *Fall 2023–Spring 2024*

- Conducted participant-based research investigating procrastination and differences in physical and cognitive effort
- Followed structured research protocols and evaluated behavioural data, including eye-movement records and time-stamped movement data
- Supported cross-cultural research into moral reasoning through computer-based experimental tasks and personality assessments
- Communicated research instructions to diverse participant groups while maintaining accuracy, consistency and ethical research standards
- Developed experience in participant engagement, experimental procedures, behavioural observation and research data integrity

Undergraduate Teaching Assistant – Psychology | *Washington State University* | *Spring 2024–Fall 2024*

- Evaluated written debates and assessments using research methodology and analytical criteria, providing constructive academic feedback
- Assessed multiple-choice and essay-based examinations, applying consistent standards to support fairness and accuracy
- Managed grading workflows across multiple assessment formats, balancing accuracy, accountability and strict deadlines

LEADERSHIP AND PROGRAMME DEVELOPMENT

Vice President of Recruitment | *Alpha Delta Pi, Washington State University* | *2023*

- Led primary recruitment operations, coordinating schedules, training materials, event logistics and member presentation standards
- Developed and delivered weekly training materials and two-hour sessions, coaching members on effective recruitment strategies
- Planned and executed recruitment events, managing multiple workstreams and adapting operational arrangements to support successful delivery
- Collaborated with alumni advisors and executive board members to align recruitment activities with organisational objectives.
- Coordinated meetings, resources and operational requirements to maintain consistency across a complex, time-sensitive programme

Chaplain | *Alpha Delta Pi, Washington State University* | *2022*

- Developed weekly visual content and affirmations to encourage engagement, positive group dynamics and cohesion within an organisation of more than 100 members
- Supported event coordination and organisational operations for key initiation programmes

Programme Support | *The Goddard School, Issaquah, Washington* | *August 2019–July 2021*

- Supported classroom operations and child development through structured learning and social activities
- Maintained confidential records and incident reports, demonstrating attention to detail and professional accountability
- Coordinated daily operational responsibilities and communicated with parents, staff and colleagues to support an effective working environment

RESEARCH, PROFESSIONAL AND TECHNICAL COMPETENCIES

Research and Evaluation: Behavioural research; experimental procedures; participant-based data collection; research protocols and ethical standards; assessment and evaluation; evidence-based programme development; behavioural observation and data integrity

Analytical and Organisational: Structured problem-solving; data interpretation and evaluation; process improvement; information organisation and documentation; critical thinking and analytical reasoning; evidence-informed decision-making

People and Leadership: Individual coaching and mentoring; training and programme development; recruitment coordination; stakeholder communication; team collaboration and leadership; learning and development

Developing Technical Interests: Python and data analysis; data visualisation; statistical analysis; working with structured datasets; applying analytical techniques to people-related questions

CERTIFICATIONS AND RESEARCH ETHICS

CITI Program

- Social and Behavioral Responsible Conduct of Research (valid through September 2027)
- Human Subjects Research (valid through September 2028)

UNIVERSITY AND PROFESSIONAL INVOLVEMENT

University College London: Consulting Society; Leadership and Management Society; Research Students' Network; International Students' Network; FemTech and Women's Health Society
